### Background

Debi Huebler graduated Mystery School in 2003 and has been a mentor in the school since 2017. As is the case for many of Lynn's Mystery School graduates, Debi incorporates shamanism into her daily life and work.

Debi has worked with abused men and women to help them heal and has also worked for many years with people struggling with addiction. As a shaman, a counsellor, and a mentor, Debi says she loves the people and can see everybody's perfection. Being able to see everybody's perfection is part of helping people reach their perfection. Debi has said her path in life is to help people know how wonderful they are.

Debi was born and raised in Southern California and then lived in Hawaii for 40 years before retiring to Arkansas.

Debi is also an artist, working mostly in watercolor and acrylic paints.
