---

## **Sacred Work**

Healing work with animals involves inter-species communication done at a distance by phone and hands on work if we are close in physical location. I am in on-going training with Geri Ryan of the Assissi Foundation.

I have worked with hands on healing for over 30 years. I use a combination of the intuitive and learned techniques including neuro-muscular release.

I have done sacred weavings for 15 years. My focus is on color, texture and design as a healing modality. Spider Woman Weaving (Transforming Spirit into Form and Function) is the name of my business.

Sound healing is a growing interest. I have a keen sense of hearing and have been drawn to using sound in a variety of ways for healing and health.

During the past 30 years I have studied and used homeopathic, natural and nutritional remedies. My guiding principle is: there is a way, the journey in health is finding it. In this regard I can provide nutritional support services.

## **Credentials**

BS, University of California at Davis

MA, Vermont College, Child Development

Thesis: Bonding with Nature/Environmental Education

Certificate in Personology

Extensive studies in the I Ching

## Black Belt in Aikido

### **Classes**

Sacred Weaving, I Ching and the Power Deck

### **Speaking**

The Mother Energies; Consulting the Oracles

*I have studied with Lynn and the Sisterhood since 1985. My first session with Lynn began with healing the Mother Energies within me. Since that time, this path has been filled with more than I ever dreamed of. Sharing with this community is a life dream, a gift and a magical mystery tour into the sea of consciousness.*
