The Freshness of Spring, Your Time to Shine.

How interesting is it that Mercury has gone out of retrograde in February and not due again until May and the new moon of April is just around the corner. **It is a time that the freshness of Spring is without any barriers.** We all have special gifts but we usually look toward others to be our psychic, our leader, our

inspiration. But the Sisterhood and I have wonderful news for you. This is your time to shine. Whether you know it or not, YOU have become the psychic dreamer in your world. You alone can see in the softly lighted room the emergence of your true self into a perfect sphere of existence. **You are one of those who see the lightening and think nothing.** How precious are you.

See the blossoms on the trees. Contemplate their beauty and see strangers as friends. There is an ancient haiku:

'Pools of pampas grass

Tremble in every wind:

A lonely heart.'

~Issa

What happens to symbols of insight and wisdom during this very new and luminous time in your life? Basho once wrote:

**'The carved god is gone:
Dead leaves alone foregather
On the temple porch.'**

I would like you to contemplate the haiku from Basho. How does the truth of these words affect you? How does it deepen you? Write about this in your journals. Look again at the line *"You are one of those who see the lightening and think nothing."* Contemplate what this means to you.

You are recreating, redefining yourself for the new creator gods. You are becoming stronger and more resilient than you have ever been. Look deeply into the connectedness of all life and feel everything. Everything exists in relation to other things.

I wish you fragrant flowers, sweet gentle winds, and the blessings of insight in this beautiful spring moon.

I would like to introduce to you Frankie Flores, one of my graduates from the Shaman Mystery School.
